THE POWER OF PREPARATION

**CORPORATE
BROCHURE
CONBIT**

OUR STORY

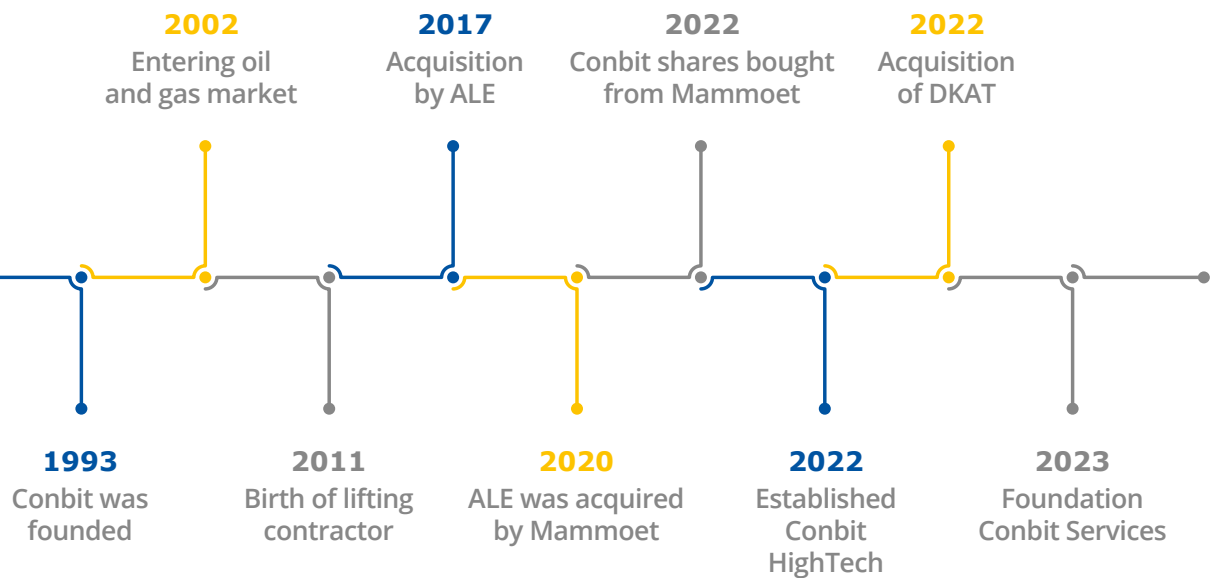

Established over 30 years ago, Conbit began as an engineering house dedicated to lifting solutions. Evolving into a turnkey lifting contractor, we now serve global clients in energy, semiconductor, maritime, and healthcare.

At Conbit, 'The Power of Preparation' underscores our commitment to quality and safety. Our story is one of growth and innovation, as we continually elevate global standards in the dynamic field of lifting solutions.

30+ years of growth, innovation, and global impact.

OUR JOURNEY

Originating in Eindhoven, Conbit began designing structures for the booming telecom industry before transitioning to offshore oil and gas in the early 2000s. In 2011, a client's bankruptcy prompted our transformation into a turnkey lifting contractor. Acquired by ALE Heavylift in 2017, Conbit rejoined independence in 2022 by repurchasing all shares from Mammoet, a move that marked a pivotal moment in our journey. Simultaneously, we founded Conbit HighTech and acquired DKAT. 2023 saw the establishment of Conbit Services, a testament to our continued evolution and commitment to excellence.

OUR HORIZONS

With headquarters in the Netherlands, Conbit features branches in the USA and in Malaysia. Our strategic locations ensure coverage across all time zones, fostering robust partnerships in Qatar, Thailand, Indonesia, Australia, Ghana, Nigeria, Angola, Brazil, Mexico, Brunei, and Libya, enhancing our global presence and impact.

CHALLENGE

EMBRACING CHALLENGES defines us, coupled with a dedication to preparation. We encourage every team member to explore new opportunities, fostering an environment where challenges are seen as enjoyable adventures that spur personal and business growth.

CARE

CARE and helpfulness are our cultural bedrock. In a busy environment, we prioritize inclusivity, valuing and respecting every individual. We embrace responsibility, promote transparent communication, and firmly oppose discrimination or harassment.

COMPETENT

We leverage COMPETENCE for thorough preparation, reliability, and creativity. Valuing expertise and continuous learning, we foster individual and team growth. Our culture encourages innovation, appreciating diverse perspectives. A competitive spirit drives us to deliver high-quality work and contribute to organizational success.

Embrace challenges, prioritize care, leverage competence—fostering growth, innovation, and a friendly spirit for success.

THREE BUSINESS UNITS

Establishing and enhancing specialized competencies and work methods, Conbit created three distinct business units: Energy, HighTech, and Services. Tailored to perfection, each unit is dedicated to serving our clients in the most efficient and effective manner.

ENERGY

As a turnkey lifting contractor and proud IRATA member, Conbit excels with innovative solutions, breaking free from conventional norms to tackle lifting projects outside the reach of regular cranes. Our portfolio spans lifting engineering, offshore lifting crews, and cutting-edge lifting equipment, ensuring unmatched precision and reliability in every offshore maintenance and modification project.

HIGHTECH

With a robust engineering foundation, Conbit HighTech specializes in designing and supplying below-hook lifting equipment compliant with Machine Directives. Enhanced by DKAT, our workshop in Arnhem extends capabilities to machining and mechanical assembly. This synergy ensures unparalleled excellence in delivering advanced solutions for HighTech sectors.

SERVICES

Conbit Services is your go-to partner for maritime and offshore crane expertise. Offering comprehensive solutions, we excel in inspection, services, installation, and commissioning. Complemented by a versatile rental fleet of cranes, we ensure seamless operations and reliable performance tailored to meet your specific needs, worldwide.

**Conbit crafts precision
across Energy, HighTech,
Services industries.**

THREE MARKET SEGMENTS

Conbit expertly navigates diverse markets, attending to the distinct needs of Offshore Energy, HighTech, and Maritime sectors. Each segment features unique characteristics and requirements, reflecting our commitment to delivering tailored solutions on an international scale.

OFFSHORE ENERGY

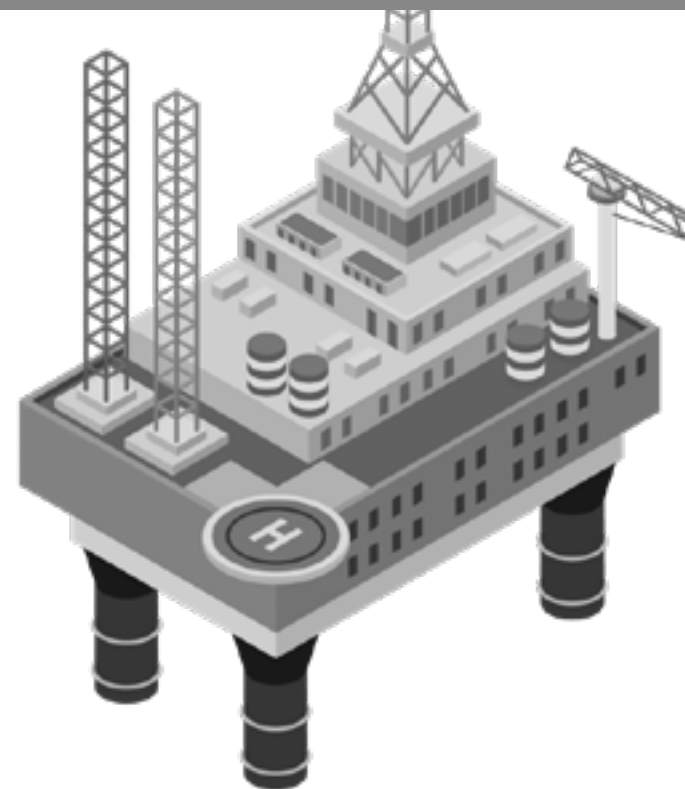

Offshore wind

In the field of offshore wind, Conbit contributes significantly by undertaking projects on substations in well-established offshore wind markets, particularly in the North Sea region. We strategically maintain and modify lifting capacity, whether on the main deck or beneath the substation, to support the growth and efficiency of offshore wind energy infrastructure.

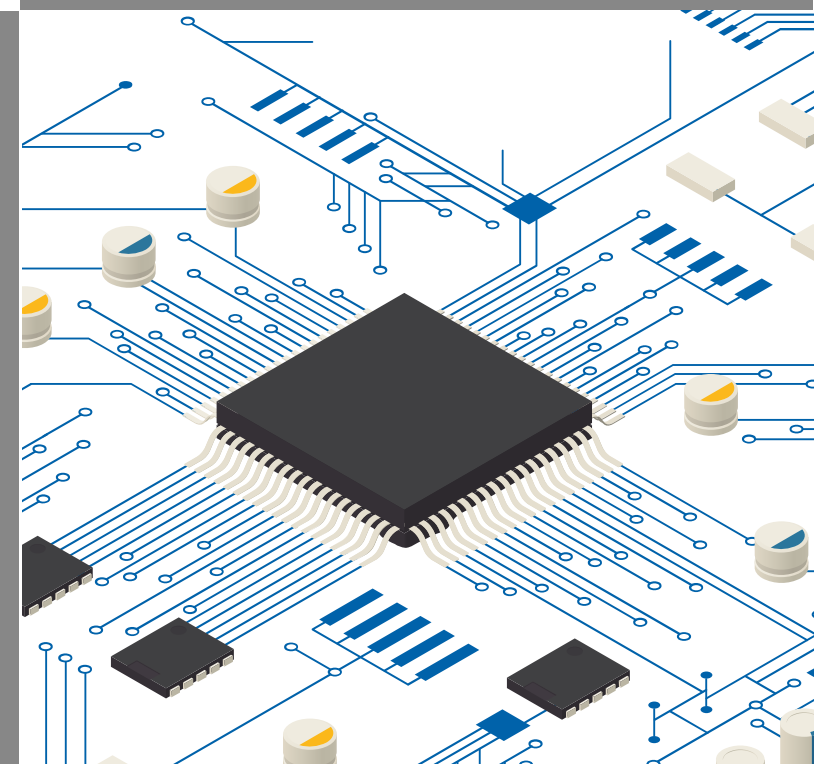

MARITIME

Conbit Maritime is a trusted partner for vessel owners and crane manufacturers. Our commitment extends to servicing entire crane fleets for vessel owners, ensuring operational excellence. With a dedication to worldwide coverage, we strive to elevate maritime operations by delivering comprehensive solutions to meet the diverse needs of our clients.

Oil and gas

Conbit specializes in executing complex lifting operations on oil and gas platforms globally. Our expertise predominantly lies in brownfield projects, showcasing our proficiency in maintaining and modifying existing facilities to meet the evolving needs of the dynamic oil and gas industry.

HIGHTECH

Conbit HighTech is a key player in the semiconductor and healthcare industries, catering to clients in the Netherlands and neighboring countries. We provide essential services to Original Equipment Manufacturers and System Integrators, contributing engineering, machining, and assembly capacity to the Brainport area, fostering innovation and technological advancement.

SERVICES

Conbit offers comprehensive services, from turnkey lifting projects to designing and supplying lifting equipment, along with precision machining capabilities.

LIFTING SERVICE

Clients request Conbit to deliver a turnkey service of lifting and structural engineering, offshore crews, and equipment, ensuring a comprehensive and tailored lifting solution.

LIFTING EQUIPMENT

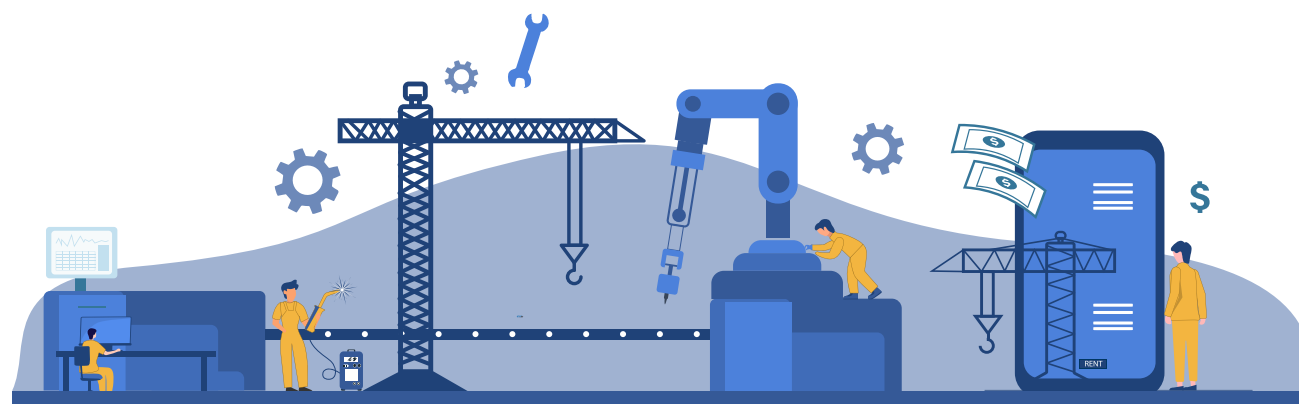

Clients request Conbit's tailored solutions by designing, engineering, and supplying lifting equipment, specializing in below-the-hook solutions, including CE marking and lifecycle services..

LIFTING EQUIPMENT RENTAL

Clients request Conbit to provide top-notch lifting equipment rental, offering offshore cranes, lifting systems, winches, and rigging equipment for versatile and efficient solutions.

PRECISION MACHINING AND ASSEMBLY

Clients request Conbit to provide precision machining and assembly services, to assemble and test small series, and to provide a cleanroom, along with precision machining, milling, and turning services.

IN OUR TOOLBOX

In our toolbox, Conbit's diverse competencies shine. Approached for a wide range of skills, we tailor solutions to meet client demands.

OFFSHORE MANPOWER

Conbit offers complete offshore teams, complemented with welders, inspectors, and other skills. Our professionals hold IRATA rope access and OPITO Rigging qualifications

LIFTING AND RIGGING EQUIPMENT

Conbit owns a diverse fleet of lifting and rigging equipment, including winches, air hoists, and modular lifting systems—all traceable and certified for reliability.

RENTAL CRANES FOR MARITIME AND OFFSHORE

Conbit offers offshore and maritime rental cranes, ranging from 1 to 20 MT SWL capacity, complete with power packs and associated equipment.

CRANE INSPECTIONS

Conbit conducts annual and five-yearly statutory crane inspections in compliance with international standards, ensuring safety and regulatory adherence.

ENGINEERING

Conbit excels in structural and mechanical engineering, offering expertise in lifetime extension, material handling procedures and equipment design. Our capabilities extend to mechatronic and electrical engineering, ensuring comprehensive and innovative solutions.

ROPE ACCESS (IRATA)

Conbit provides rope access crews and consultancy per IRATA standards. As an IRATA member, our personnel holds IRATA certification, ensuring expertise and safety.

LIFECYCLE SERVICES

At Conbit, we redefine excellence in Lifecycle Services for lifting equipment. Our comprehensive approach seamlessly integrates design, engineering, procurement, fabrication, and supply. Beyond initial implementation, we excel in inspection, maintenance, and repair, ensuring longevity and optimal performance. Trust us to keep your lifting assets current with meticulous record-keeping and access to (temporary) replacement systems. Experience reliability throughout the entire lifecycle of your equipment with Conbit.

DECK CRANES

Conbit stands as your premier partner for comprehensive Lifecycle Services tailored to deck cranes, ensuring uninterrupted offshore and marine operations. As your one-stop shop, we provide brand-independent services encompassing thorough inspection, maintenance, and necessary modifications, coupled with certification services. From insightful procurement advice to vigilant oversight during fabrication, we act as your trusted ears and eyes. For those seeking to extend their crane's lifetime, our skilled engineers specialize in re-assessing technical longevity. Choose Conbit for a holistic approach, ensuring the operational excellence and longevity of your offshore and marine cranes.

BELOW HOOK LIFTING EQUIPMENT

Entrust Conbit's expert team to craft cutting-edge lifting tools meticulously engineered for the seamless transfer of components within your manufacturing process. Additionally, we specialize in designing lifting tools that seamlessly integrate with the machines delivered by you, ensuring a cohesive package upon arrival.

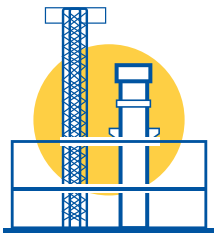

Our comprehensive Lifecycle Services include regular inspections, proactive service, and meticulous maintenance, ensuring the longevity and peak performance of your lifting tools. Conbit's commitment extends beyond design to keep your tools compliant, providing versatile solutions that seamlessly align with industry standards, enhancing efficiency and functionality.

Conbit excels in comprehensive Lifecycle Services, ensuring longevity and peak performance for equipment

HIGHLIGHTED SERVICES

At Conbit, our globally sought-after services distinguish us across industries. Clients worldwide choose us for unique solutions, forming the foundation for enduring partnerships. From specialized engineering to comprehensive lifecycle services, Conbit's commitment to excellence ensures clients receive unparalleled support, setting the stage for long-lasting collaborations in diverse sectors.

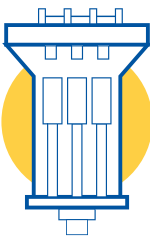

FLARE TIP HANDLING

Flare Tip Handling, a pinnacle of specialization, is a hallmark service at Conbit. Our skilled crew spans the globe, undertaking flare tip replacements with precision. Beyond execution, clients seek our consultancy and engineering expertise in flare tip handling.

Our comprehensive service portfolio includes supplying flare tip handling packages.

What sets us apart is our in-house project mastery—from lift plans and structural analyses to project execution—bolstered by Conbit's unique equipment and a specialized crew.

CAISSON HANDLING

Caisson Handling, marked by unique technical challenges, positions Conbit as a distinguished expert. Caissons, often positioned beyond crane reach and with questionable integrity, necessitate meticulous handling. From conceptualization to project completion, Conbit stands out in complete caisson replacements.

Our specialized team ensures careful planning and preparation, engineering innovative replacement methods. With seasoned specialists and experienced crews adept at overcoming offshore challenges, Conbit distinguishes itself in executing complex caisson handling projects with precision and expertise.

CRANE BOOM REPLACEMENT

Crane Boom Replacement is a growing expertise at Conbit, driven by global demand. Clients worldwide recognize our proficiency in replacing crane booms without the need for crane vessels or load-bearing scaffolding.

Noteworthy is our minimal space requirement and often shutdown-free operations. From engineering to execution, Conbit manages the complete crane boom replacement process.

This service seamlessly integrates into our comprehensive deck crane lifecycle services, reinforcing our commitment to efficient and non-disruptive solutions for clients across the globe.

CE LEGACY

Introducing CE Legacy Upgradation, a cutting-edge service by Conbit, ensuring your lifting equipment's CE markings align with today's standards.

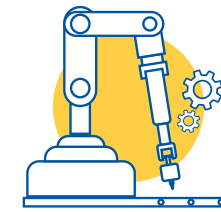

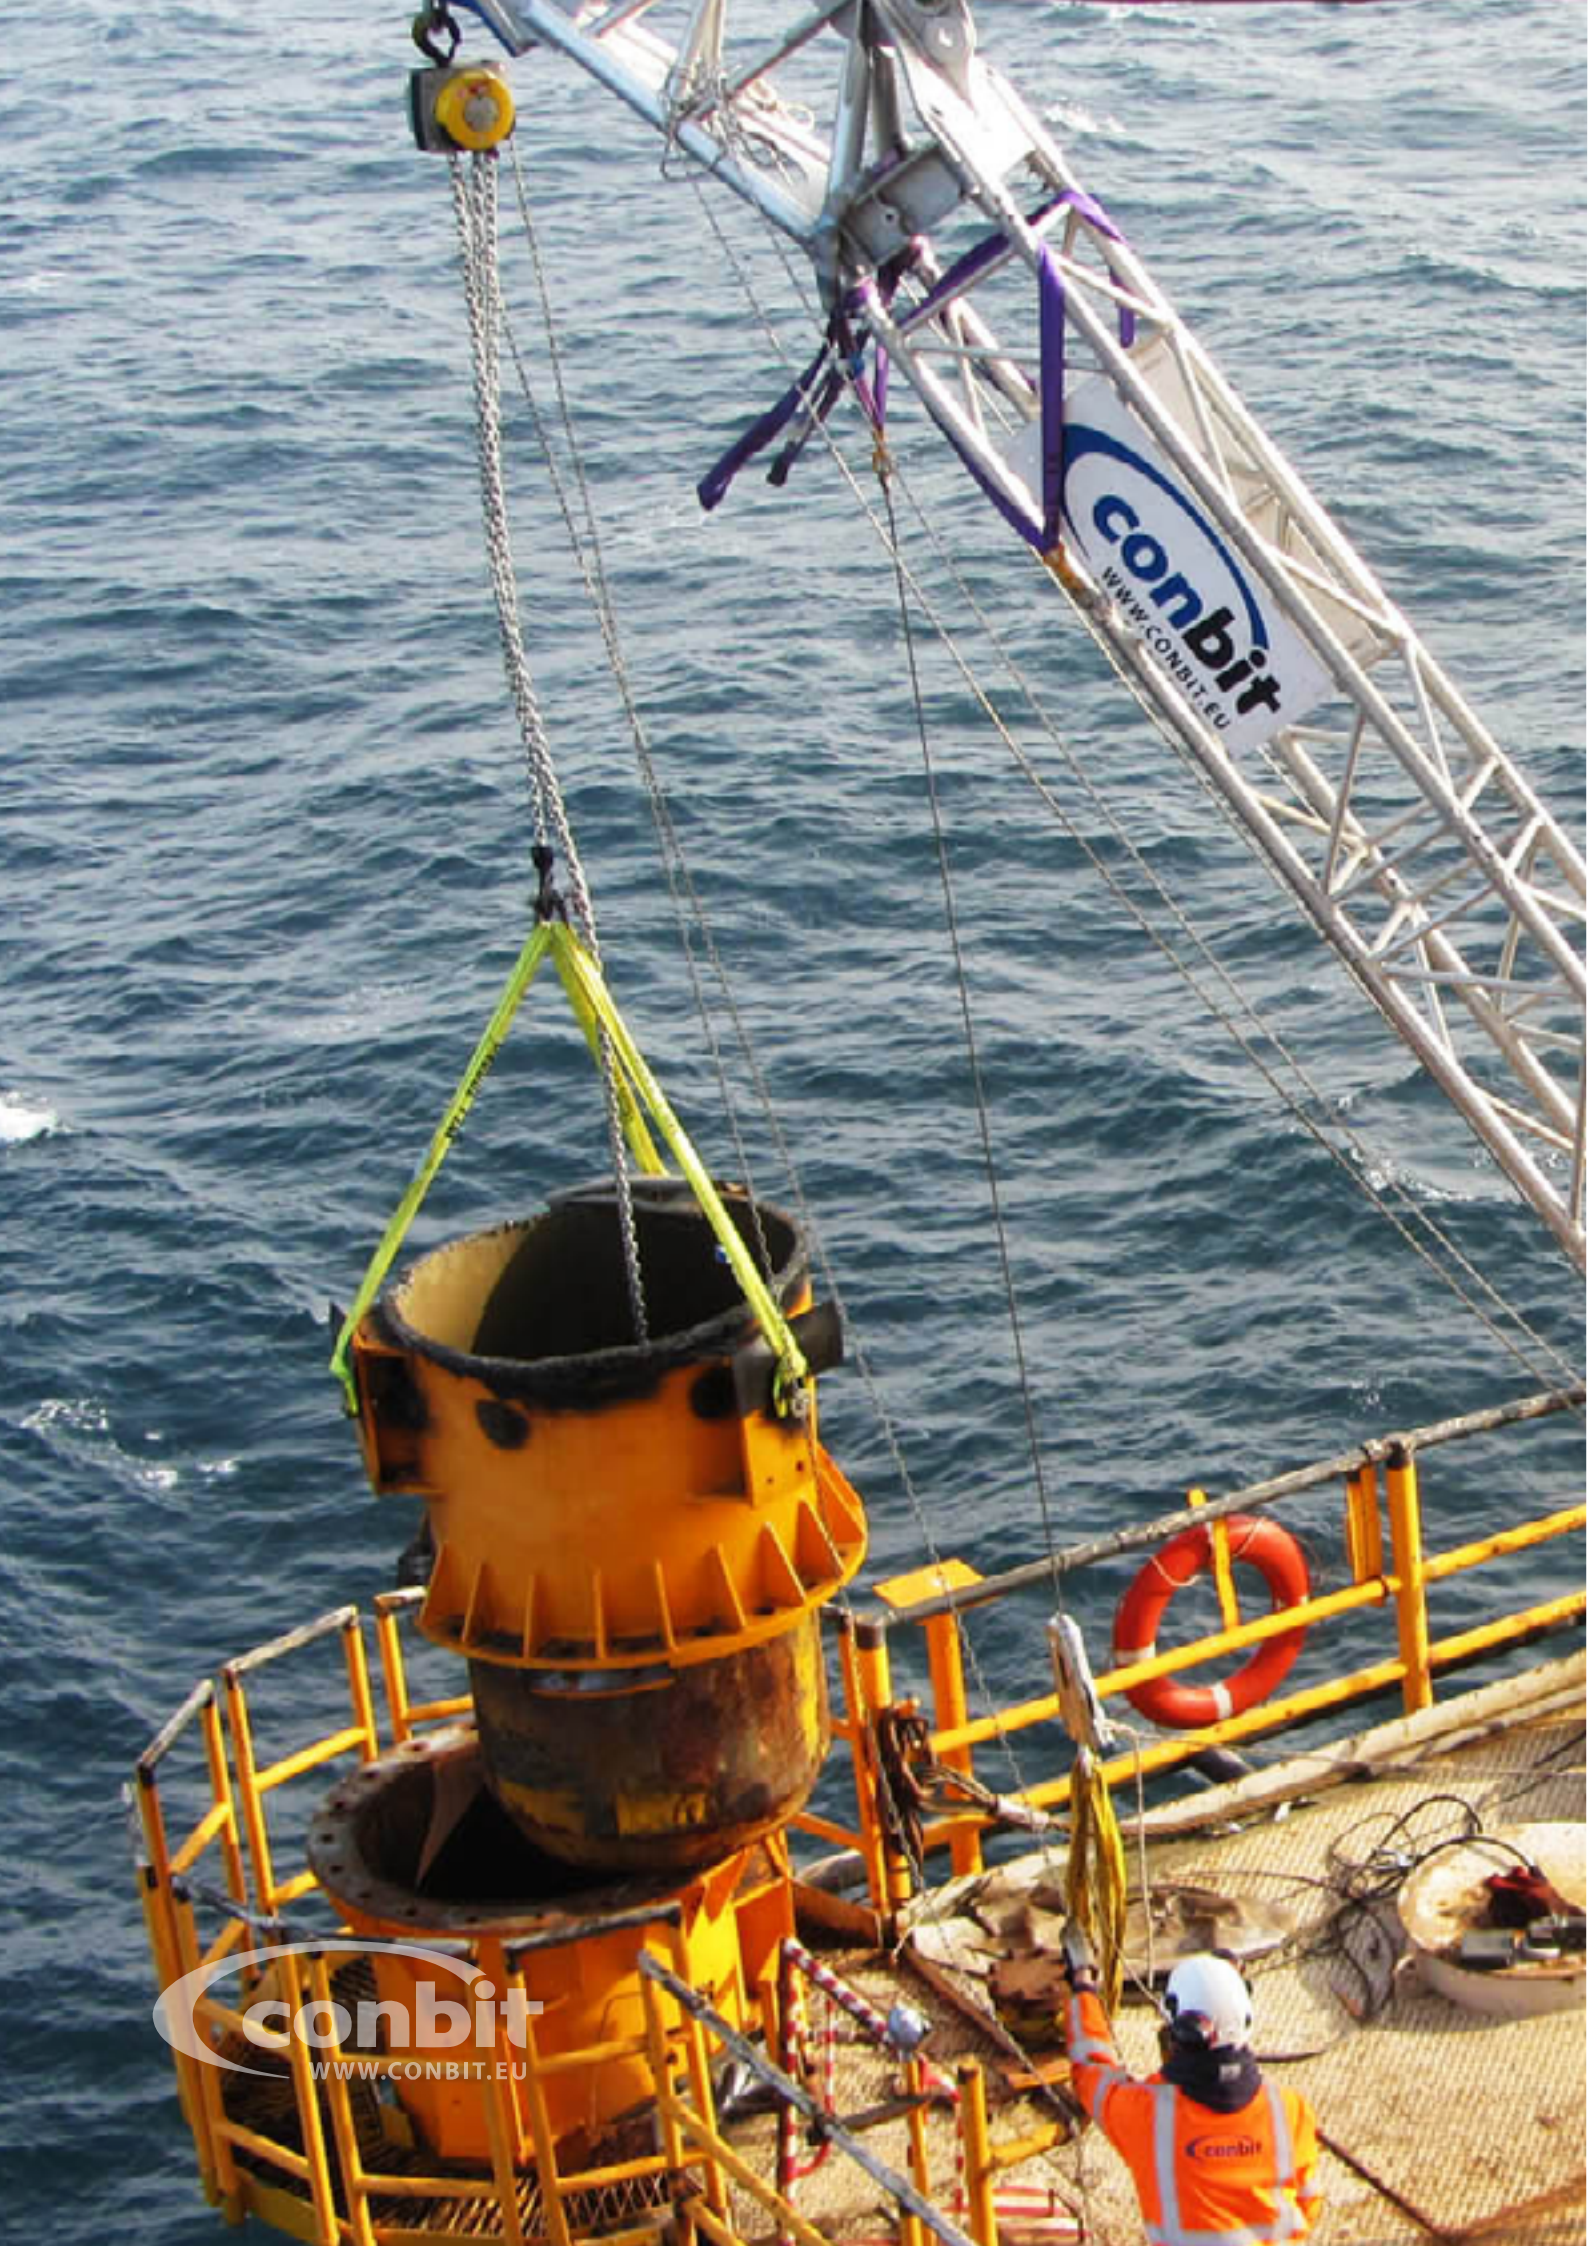

Our process begins with a meticulous evaluation of paperwork against current directives. If modifications are needed, Conbit engineers propose and implement changes. From lifting tools to equipment, we adeptly modify and re-certify, ensuring strict compliance with contemporary CE guidelines.

Trust Conbit to navigate the complexities, delivering a seamless transition that keeps your lifting operations compliant and up-to-date with the latest industry standards.

CLEAN ROOM ASSEMBLY

Conbit excels in mechanical assembly and testing within our ISO 7 cleanroom, ensuring precision and quality in a controlled environment.

MECHANICAL ASSEMBLY

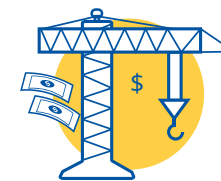

To maintain your focus on what you do best, Conbit extends Assembly Services. Our skilled assembly technicians adeptly take charge of assembling your mechanical and mechatronic systems, specializing in precision work, even within cleanroom environments.

Following assembly, Conbit engineers conduct thorough testing in accordance with your specified test program, ensuring the seamless integration and optimal performance of your systems.

MACHINING

Experience precision like never before with Conbit's Machining Services. We specialize in crafting precision mechanical products with accuracy down to a micrometer. Empowered by state-of-the-art machinery and seasoned professionals, we execute assignments with meticulous precision. From milling and turning to grinding and sheet metal shaping, Conbit is your trusted partner for precision machining.

CRANE RENTAL

Elevate your project capabilities with Conbit's Crane Rental services. Our comprehensive range includes knuckle boom cranes, powerpacks, and winches, offering lifting capacities from 2 to 30 tonnes at various ranges.

Compliant with marine and offshore guidelines, some of our cranes are certified for operations in ATEX environments. Others are certified for man riding.

Conbit not only provides the equipment but ensures seamless installation and commissioning by our skilled technicians, empowering you with additional lifting capacity on vessels, projects, or offshore facilities.
