

UNLOCKING EXCELLENCE IN OFFSHORE SERVICES

Process
solutions

Multitechnical
maintenance

Advanced
monitoring

Your operational success depends on diligent monitoring and proactive maintenance. By keeping a close watch on your installations, you can optimize their functioning and perform maintenance before it is too late. Equans provides specialised Offshore Services for the Offshore Energy Industries.

THE ADVANTAGES OF MONITORING AND MAINTENANCE

To make sure your asset is performing as intended, it is vital to have a clear understanding of its condition. The sooner irregularities are detected, the quicker they can be addressed.

Proactive maintenance helps to keep systems running efficiently. This can reduce downtime and detect sub-optimal performance. Regular inspection is a must for compliance and safety, and it also allows for repair or upgrade of systems when required.

KEY SERVICES FOR OFFSHORE WIND INDUSTRY

- **Condition Monitoring and Maintenance Management** by our experts ensure that your assets remain operational, reducing downtime and enhancing reliability.
- **Offshore Activities (Corrective Maintenance, Troubleshooting and Fault Finding)** of your systems and equipment, with specialisation in SCADA, HVA/C, System design and more.
- **Modifications, Upgrades, Removal and Replacement** of aging parts or whole systems to ensure your asset remains up to date.
- **Logistical and personnel services**, providing the most suitable transport solutions or specialised personnel to support your operations.

KEY SERVICES FOR OIL AND GAS INDUSTRY

- **Multi-disciplinary maintenance:** From Mechanical and rotating and electrical equipment to piping systems and Instrumentation we can cover all aspects of maintenance, ensuring all of your systems are in optimal condition.
- **Inspection and certification management:** We meticulously inspect and certify your equipment, adhering to industry standards and compliance requirements.
- **Process operations:** We provide support for process operations, ensuring the efficiency and reliability of your production processes.
- **Equipment rental:** Need specialised equipment? We offer rental solutions to meet your specific needs, reducing capital expenditures.
