

KAPERNIKOV SEA

**“Turn your data into
quantitative information
in the most efficient way”**

www.kapernikov.com

KAPERNIKOV SEA

Is your data your biggest asset?
Or your biggest bottleneck?

survey data

Manage maintenance data processes with Kapernikov

asset data

Survey data - in an ideal world...

- Browsing large datasets from multiple sources **without wasting time**
- **Ship to shore** data processing, aligned with business processes
- GeoAI empowers experts to **improve quality while saving time**

How can we help you *manage* your data?

We introduce **data management** according to best practices and anchor it in your organization:

1. Together, we **design** the **methodology** around your processes
2. We **build** your **infrastructure** needed to implement it

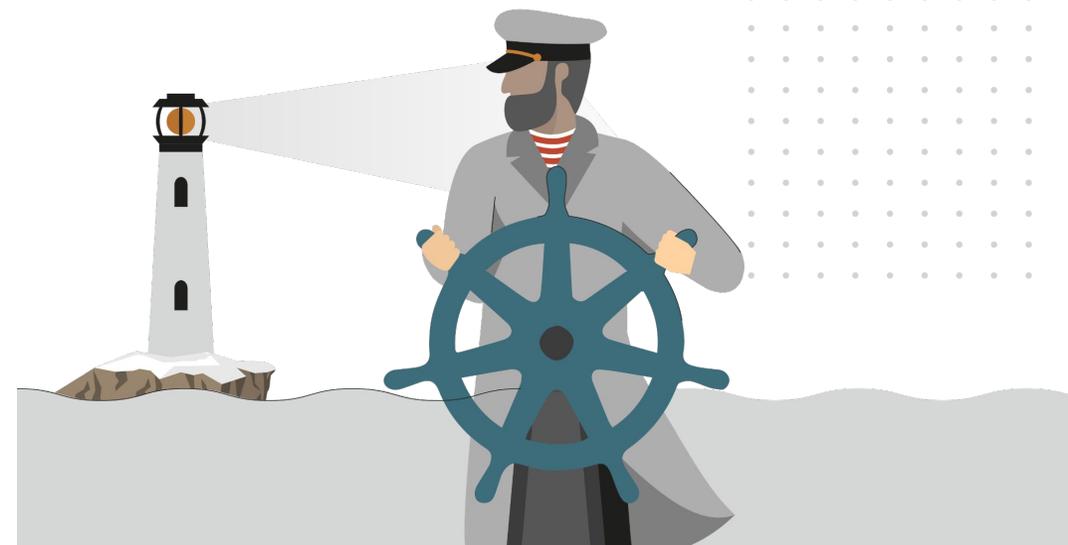

How can we help you *process* your data?

We introduce **processing pipelines** according to best practices and anchor it in your organization:

1. We **listen** to **your experts'** requirements and **wishes**
2. We build & integrate **reliable GeoAI solutions**

How will we work together?

“We analyze your requirements and *form a team* with the expertise to turn your vision into reality”

We count on you for:

- Data capturing hardware
- Data interpretation
- Data processing needs
- Customer needs and wishes

Kapernikov brings:

- Data management methodology
- IT infrastructure knowhow
- Software development
- GeoAI
